

# SOCIAL PLEDGE

**We, students of Regional Center Schools,  
Youth Villages, Yeshivot and Uplanot, Rural  
Sector Workers, citizens of Regional Centers,  
and educational staff -**

**Understand and accept the need for  
cooperative action in order to promote a  
value-based society, one that is respectful,  
inclusive, and tolerant. A society whose  
citizens are initiators, volunteers who take  
care of one another while retaining mutual  
respect and aid to all – those who are victims  
of violence and discrimination. We, the  
undersigned on this proclamation commit to  
cooperation and effort to do everything in our  
power to:**

- Act to connect different sectors of our society, as this is the only way a multicultural society can become a unified people.
- Encourage activism, volunteering, and programs for our multicultural society.
- Encourage youth leadership to contribute to Israeli society.
- Act with respect for one another and ensure that each person is appreciated, and respected
- Accept the emotional, social, and educational needs of each person, no matter who they are.
- Aid and guide each and every person who has been harmed.

**To all this, we have come to commit and sign our names on Tuesday the 21st of March, 2023 at this Organized Run for the Mishala Initiative.**
